

DURE™

Heavy duty sewing thread

DURE™ is newly developed heavy duty polyester spun sewing thread. Our original spinning way and special polyester fiber is used and it provides high tenacity. DURE™ is the best for sewing by fine count yarn with high tenacity and in the case of you are not satisfied with the tenacity of present sewing thread. (DURE™ provides more than 20% higher tenacity than our present polyester spun yarn.) In addition, it provides low hairiness on the surface and beautiful seams.
